#### President's Message

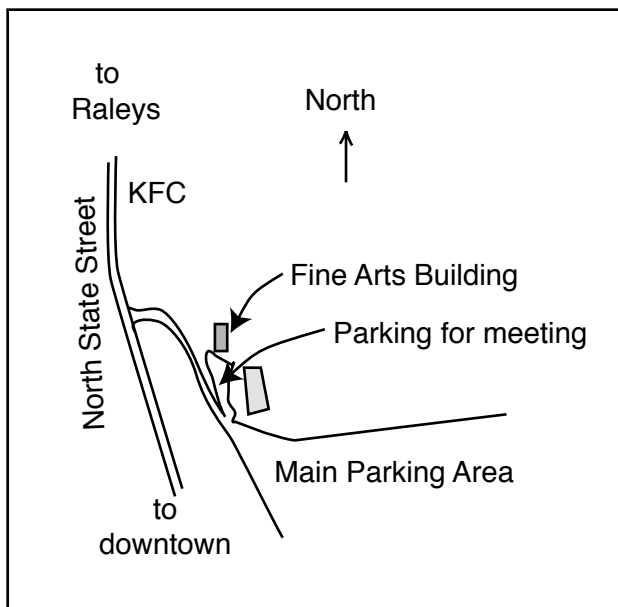

##### Presidents Message

The **mission olive project** I wrote about two months ago has delivered the first of the olive wood that was promised. If you told me you wanted to be on the list to receive some of this wood, you will be hearing from me. If you would like to get in on the deal there is still wood available. Remember the deal is you turn something for them to sell to raise funds for their nonprofit and then you keep the rest of the wood for your own projects.

It's time to start thinking about a **fall show and craft fair** for the club. I need your input! What kind of show do you think the club would enjoy? Do you want to take part in the craft sale? This is the best chance to show our work to the community and have fun doing it. We may be spending some of your club's money on this project so make sure you get your two cents worth in before the board makes plans.

**Redwood Empire Fair time is here!** Remember, the last day to turn in paperwork for your entries is **July 8**. Any questions just call me or Dave Peck.

Are you doing any turning these days? It may be summer but it's a great time to rough turn some bowls or platters or hollow forms. Then they'll be ready to finish turn next fall when the rain drives you into the shop. It's also a great time to start thinking about crafts you might want to do for the fall show. Come to think of it, it's a great time to do some turning.

## Last Meeting

Twenty two people attended the Picnic. The weather was excellent. The pot luck and the chicken delicious. Ten individuals showed some of their nicest work - Dave P had a madrone vase, Gary W a maple bowl, Larry P showed boxes and bowls, Pete P presented a segmented bowl of redwood, zebra-wood and maple, Dean M, shared his newest fascination - segmented turnings. Bob H had a live edge bowl and some olive pourers. Rob H showed a vase, box and wine glasses. Neil E showed wood plates and Don R displayed a pot pourri container. Dave Peck, George Waterstraat and Pete Passof donated wood for a free raffle and everyone went home with at least one piece.

## Saturday Mentoring for July 23, 2011

Saturday will be for both beginning and intermediate turners. We will be taking a look at turning vessels with thinner and more uniform walls. We'll cover techniques that are useful in many areas of turning. Everyone will get to spend time on the lathe. If we have time we will also look at some of the basic hollowing tools and techniques.

Everything will be provided, but you can bring your own tools to practice with if you like. Bring your lunch and spend the day learning to make turning more satisfying and more fun.

If you have not been to my shop (201 Pine Ridge Road, Ukiah) give me a call (707 462 1155) for directions.
